

10 SEO Mistakes Pakistani Bussiness Make.

Most small businesses in Pakistan lose customers every day because of simple SEO errors. Here are the top 10 mistakes and how to fix them.

1. **No Keyword Research** : Use Google Keyword Planner to find real search terms your customers use.
2. **Slow Website Speed** : Compress your images and use fast hosting to improve speed.
3. **No Google Business Profile** : Set it up for free at business.google.com to appear in local searches.
4. **Missing Meta Descriptions** : Write a clear 150 character description for each page.
5. **Not Mobile Friendly** : Over 70% of searches happen on mobile. Make sure your website works on phones.
6. **Duplicate Content** : Always write original content. Copying hurts your ranking.
7. **No Internal Links** : Link your pages to each other so Google can find all your content.
8. **Ignoring Image Alt Text** : Every image needs a description to help Google understand it.
9. **No Regular Content** : Publish at least one blog post per week to rank higher.
10. **Not Tracking Results** : Install Google Analytics to see what is working.

Fix these mistakes and you will see improvement in your Google ranking within 60 to 90 days.
